

Unlock Possibility.

We founded Aerie because we believe that our simple, smart and powerful solutions can help businesses meet their goals more effectively and efficiently.

Our team of professionals brings deep technology expertise along with insights and perspective from industries as diverse as healthcare, education, architecture & construction, the arts, and government.

We make it our mission to understand your people, your data and your systems and craft solutions that will connect them together seamlessly into a smooth and successful operation ready to tackle the next big opportunity.

Modern Work

1

We design for people, not data

The best technology in the world won't help your business if it doesn't work for your employees. Solutions must be intuitive, clean, and easy to learn and operate. We help get you there.

2

We know our stuff

We do the upfront work to make sure we develop the right solutions for you. Then we work closely with your team to ensure that new applications are onboarded smoothly.

3

We are flexible

We identify process gaps and design quality solutions because we listen. We listen, and ask questions to truly understand what success looks like for your team.

Why Aerie?

Our team is dedicated to getting things done on time with a keen attention to detail.

We collaborate closely with our clients to ensure they get the best possible service from us.

Our Expertise

Our mastery in the Microsoft Suite is more than proficiency - it's our identity.

Our team of specialists, each an expert in their respective domain, are ready to deliver exceptional results using the Power Platform, Dynamics 365, Azure, M365, and Microsoft Co-pilot.

With us, you're not just obtaining a service; you're unlocking new possibilities for your business's growth and efficiency.

Our Services

At Aerie we deliver transformation. We understand that your needs are unique, multifaceted, and often cross boundaries. That's why we've crafted a powerful trifecta of service offerings, designed to transcend traditional categories and drive real impact.

01
**Project
Services**

02
**Managed
Cloud
Services**

03
**Licensing &
Migrations**

01

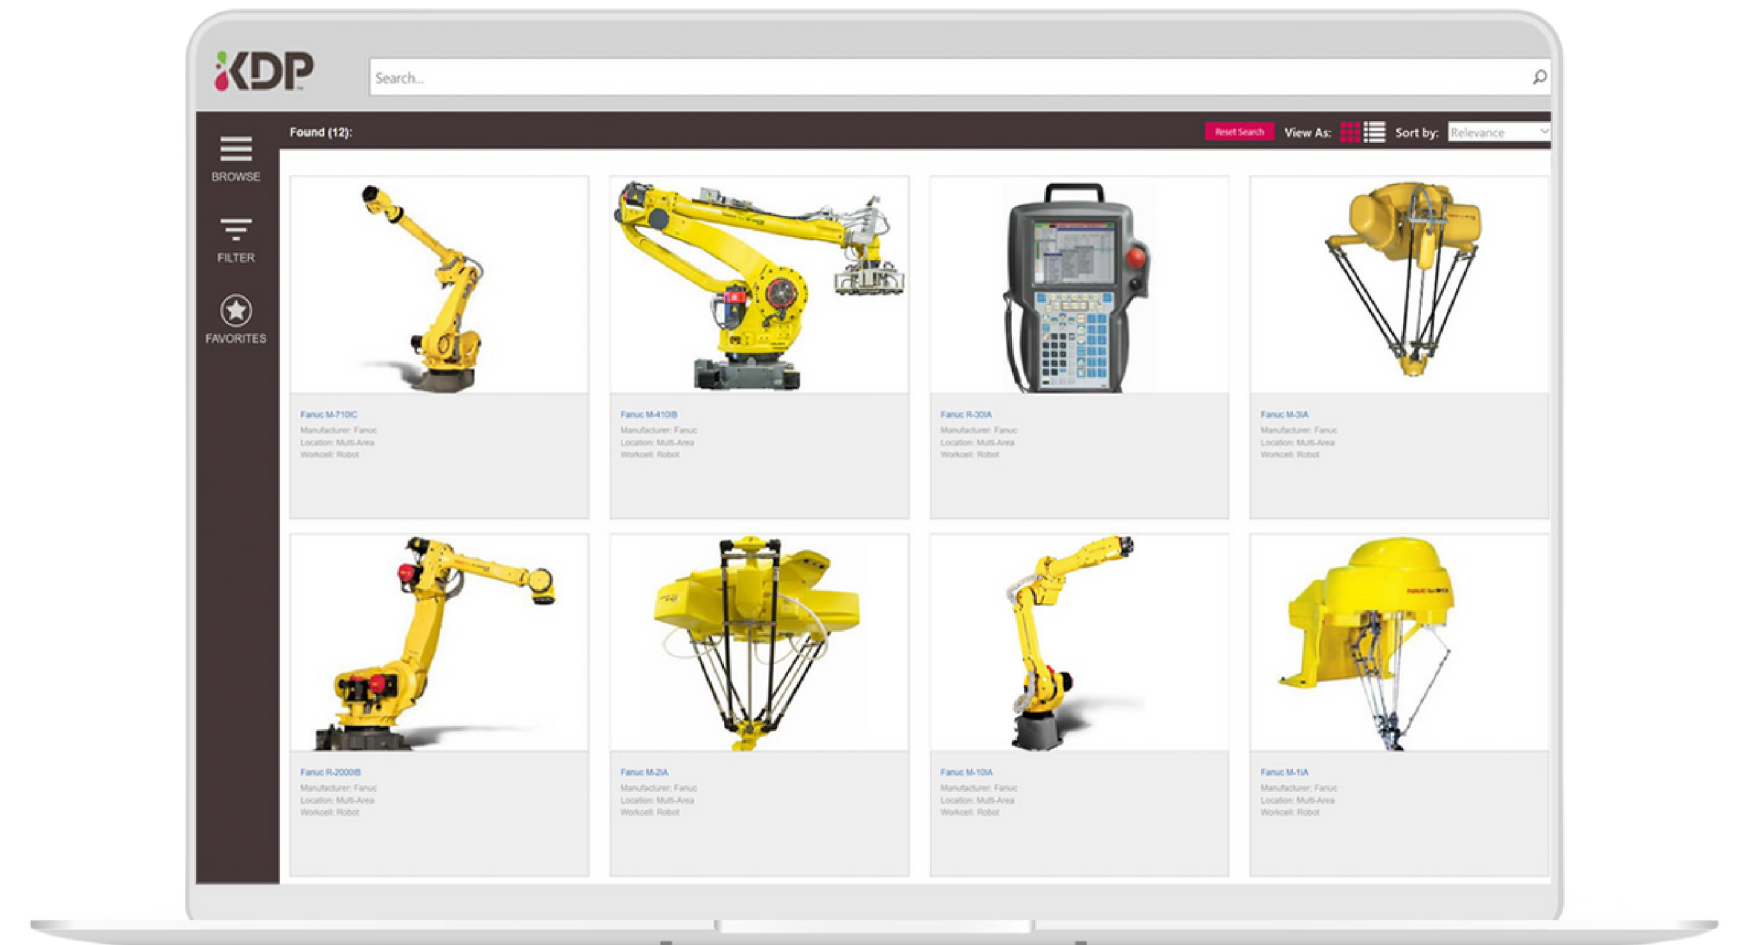

Project Services

Microsoft Cloud Application Development

We offer expert development services for M365, D365, Power Platform, Teams, SharePoint and Azure environments. Leverage our expertise to create small user interface tweaks for your users, or initiate the development of custom applications to suit your business' needs.

Creative Solutions & Best Practices

We pride ourselves in user-centered design that ensure high levels of adoption and increased productivity for end users. Our developers' deep knowledge of Microsoft best practices, combined with our comprehensive solutions, ensures long-term stability and success.

02

Managed Cloud Services

Navigating the complexities of managing your IT environment can be overwhelming. But with Aerie, we have a solution to optimize your cloud operations. Our Managed Cloud Services are expertly designed to alleviate these challenges, empowering your IT staff to focus on strategic business goals.

We don't just manage your cloud environment; we optimize it. Through proactive management, we keep a close eye on your cloud systems day in and day out. Our Fast Track to Microsoft Proactive Services and Maximize the Cloud Trainings are designed to help your team leverage the full potential of your tools.

03

Licensing & Migrations

Microsoft Cloud Licensing

With so many options and applications, it can be difficult to know if you're getting the most value out of your Microsoft licensing agreement. At no cost to you, we can help identify the right products and applications for your organization, and uncover areas of savings.

Microsoft 365 Migration

A seamless migration to Office 365 requires planning, foresight and Cloud Services experience; we provide all of the above. Our team can help you leverage Office 365 features in ways that will improve your organization's productivity and business process.

What they're saying

"I really liked their knowledge and style. They were really committed to understanding our needs, and made recommendations that were better than what we could come up with on our own. They are good at what they do, and they are humble about it. We can't wait to see what's next." - Kevin Campbell, Keurig Dr Pepper

"Aerie has a really great process, we loved working with their team to develop our new Intranet. It has made a massive difference in our company file management and ability to stay up-to-date with company news." - Erin McEnaney, Orvis

"With our new Aerie Accelerated Intranet we have improved operational efficiency, safeguarded our digital and physical assets and surpassed revenue goals. People no longer look at the platform and say, 'I wish we could do this.' Instead, they ask, 'Can we do this?' It's a big difference." - Media Oakes, Subaru of Indiana
