

**Unlock Possibility.**

**We founded Aerie because we believe that our simple, smart and powerful solutions can help businesses meet their goals more effectively and efficiently.**

Our team of professionals brings deep technology expertise along with insights and perspective from industries as diverse as healthcare, education, architecture & construction, the arts, and government.

We make it our mission to understand your people, your data and your systems and craft solutions that will connect them together seamlessly into a smooth and successful operation ready to tackle the next big opportunity.

Modern Work

1

## **We design for people, not data**

The best technology in the world won't help your business if it doesn't work for your employees. Solutions must be intuitive, clean, and easy to learn and operate. We help get you there.

2

## **We know our stuff**

We do the upfront work to make sure we develop the right solutions for you. Then we work closely with your team to ensure that new applications are onboarded smoothly.

3

## **We are flexible**

We identify process gaps and design quality solutions because we listen. We listen, and ask questions to truly understand what success looks like for your team.
